# Project Demo Video

AIBS x AEL | Duration: 4 minutes 18 seconds

## Open the video folder on Google Drive

Open **Demo_video.mp4** in the folder to watch our demonstration.

## What the video shows

We demonstrate how our tool processes a Dutch source about AI and sportswear:

1. Add a Dutch text and translate it into English.

2. Combine it with two previously translated sources to create a handbook.

3. Publish the handbook PDF to GitHub and open the uploaded file.

4. Show the Dutch input and English translation in our local wiki archive.

The handbook PDF is published on GitHub. The wiki archive is a separate local view of the source texts and translations.
